**GOVERNOR CHRISTINE GREGOIRE TOURS MODUMETAL, INC.**

**Governor touts Modumetal as an example of small business entrepreneurship that is harnessing green technology to create new jobs**

(Seattle,WA) Washington State Governor Christine Gregoire toured Modumetal, Inc, on Monday, October 11<sup>th</sup> as one of two stops for Gregoire to draw attention to [Puget Sound](#) businesses that are looking to or have recently expanded.

Modumetal of Seattle, WA, founded in 2007, is realizing the commercial potential of a unique class of nano-laminated materials. The company is creating materials that will change design and manufacturing of metals by redefining structural, corrosion, and high temperature performance.

Modumetal is made by a "green" electrochemical manufacturing approach, which reduces the carbon footprint of conventional metals manufacturing at the same time that it revolutionizes materials performance. ([www.modumetal.com](http://www.modumetal.com)).

"Modumetal displays the kind of innovation and creativity that is key to our economic growth," said Gregoire. "From the administrative staff to the scientists, to the investors that support Modumetal's goals, this company is made up of individuals that are excited about their mission. This is also a company that represents one aspect of green manufacturing that is critical for the future of our state and nation."

Modumetal is slated to add additional manufacturing space and new employees as a part of its planned expansion in 2011.

"We are grateful to Governor Gregoire for her leadership in drawing attention to small businesses such as Modumetal," said Christina Lomasney, Modumetal co-founder and CEO. "It is her vision for Washington State's role in the global economy that ensures we have a business and economic climate that is sure to foster investment and growth. The Modumetal team is proud to have the opportunity to share our exciting products and progress with the Governor and to show the impact of these on job creation and economic growth in Washington State."
