CONGRESSMAN JIM MCDERMOTT TO TOUR MODUMETAL

Washington's 7th District Congressman to tour Alliance of Angel's "2010 Company of The Year" that is leading the way on new material technology and innovation

SEATTLE, WA - U.S. Congressman Jim McDermott (D-WA), who represents the 7th Congressional District of Washington State, which includes Seattle and parts of several neighboring communities, will be attending an Open House later this month at Modumetal, to learn about the firm's cutting-edge technology and processes. Modumetal was recently named the Alliance of Angel's "2010 Company of the Year".

"Congressman McDermott has been an enthusiastic supporter of small businesses in his district for many years," said Modumetal CEO, Christina Lomasney. "As an emerging company, which is creating high-paying technology jobs in Seattle, The Modumetal team is thrilled to have him tour our facilities to observe first hand the growth potential of Modumetal and to share in our vision to revolutionize the metals industry through nanotechnology, right here in Washington State."

Who: 7th District U.S. Congressman Jim McDermott (D-WA)

What: Tour of Modumetal, Inc by U.S. Congressman Jim McDermott

When: Thursday, August 12th, noon-2:00 p.m. PST

Where: Modumetal, Inc
1443 N. Northlake Way
Seattle, WA 98103

Modumetal of Seattle, WA, founded in 2007, is realizing the commercial potential of a unique class of nano-laminated materials. The company is creating materials that will change design and manufacturing of metals by redefining structural, corrosion, and high temperature performance. Modumetal is made by a "green" electrochemical manufacturing approach, which reduces the carbon footprint of conventional metals manufacturing at the same time that it revolutionizes materials performance.
